

# HDPE white fuel tank

Single wall model with metal reinforcement

# TANK

**NF STANDARD**

## BENEFITS

- Compact, easy to fit
- Seamless
- Metal reinforcement to avoid long-term deformation

## TECHNICAL CHARACTERISTICS

Reference	Capacity	Dimensions (LxWxH) in mm	Weight in kg
01020400001	700 litres	735 x 735 x 1635	23
01020400002	1000 litres	1340 x 620 x 1646	42
01020400003	1600 litres	1720 x 770 x 1700	72
01020400004	2000 litres	2100 x 730 x 1695	108
01020400005	2500 litres	2200 x 860 x 1565	140

- Tank meeting NF standards
- Compact dimensions and forms
- Modular system: several tanks can be installed in a set to meet your requirements
- 4 top inlets with plug

## OPTIONS

Reference	Description
01990500001	Connector kit: simple racking
01990500002	Connector kit A (700 - 2500 litres)
01990500003	Connector kit B (700 - 2500 litres)
01991000002	Mechanical tank gauge
01991300012	Vent for tank HDPE
01999900706	Filling elbow 2"

**CONNECTOR KIT A (option)**  
For one tank or the first tank of a set.  
700 - 2500 L tanks.

**CONNECTOR KIT B (option)**  
To assemble additional tanks in a set (including the filling, vent and racking system with a stop valve and dip tube for each additional tank). 700 - 2500 L tanks.
