

# Mobile Tank

Fuel station

TANKS

## TECHNICAL CHARACTERISTICS

### SAFETY

Lockable container, restricting access to authorised persons

### Ventilation

Fuel storage in a tank with retention tray

### Anti-slip grating

External and internal opening (lockable door with emergency opening)

Electrical fittings which comply with European standards

Easy grounding

### PROTECTING THE ENVIRONMENT

Main retention tray to contain fuel in case of leakage

Mobile and independent unit, can be installed on-site outside, and away from sensitive locations

Easy to move with slings or a lift truck thanks to the fork slots

## MOBILE TANK

When fitted in a maritime container, our fuel station is ideal to secure access to ever-more-expensive fuel.

*This mobile tank is ideal for the supply of bio-fuels on isolated sites, with optional computerised fuel service management.*

Precise standards exist for fuel storage (order of 03 March 1976). Opt for the BEISER mobile tank and ensure compliance with rules for hydrocarbons.

## EQUIPMENT AS STANDARD:

- Transfer pump 60 L/min + 6 m hose and automatic gun.
- Installation kit with vent and mechanical gauge
- Powder extinguisher
- Outdoor signs (flammable products, smoking prohibited.)
- 1 indoor electrical plug

## OPTIONS:

- Fuel pump with built-in management system,
- 8 m winding reel

| Reference   | Description | Capacity in litres | Inner L x W x H in mm | Outer L x W x H in mm |
|-------------|-------------|--------------------|-----------------------|-----------------------|
| 01021100001 | MT30        | 3000               | 3350 x 2280 x 2210    | 3500 x 2430 x 2600    |
| 01021100002 | MT50        | 5000               | 3820 x 2280 x 2210    | 4000 x 2430 x 2600    |
| 01021100003 | MT80        | 8000               | 5200 x 2280 x 2210    | 5400 x 2430 x 2600    |
| 01021100004 | MT100       | 10,000             | 5820 x 2280 x 2210    | 6000 x 2430 x 2600    |
